📍 Bangalore

OBJECTIVE

"Ambitious BCA student and aspiring Full-Stack Developer proficient in Python, Java, C++ with practical experience building web systems using PHP, MySQL, and Scripts. I combine this with my strong communication skills, understand their needs, work toward a mutually satisfying outcome and I maintain an unbiased perspective in all situations. Seeking an internship to apply my technical problem-solving skills and contribute to impactful software projects."

PROJECTS

PASSPORT AUTOMATION SYSTEM

Year:-2026

Developed a web-based Passport Automation System that allows users to submit applications, track status, and manage documents digitally, reducing manual paperwork and improving administrative efficiency.

Tools :-

ID Environment:- Visual Studio Code.

Languages:- HTML, CSS, JavaScript and PHP

Database:-XAMPP- MySQL-Secure data management.

WEB RESPONSIVE UI PORTFOLIO

Year:-2025

Designed and developed a responsive, multi-page professional portfolio website to showcase technical projects and skills.

Tools :-

ID Environment:- Visual Studio Code.

Languages:- HTML, CSS, JavaScript.

Framework:- Bootstrap | VCS: GitHub.

STUDENT DATABASE

Year:-2024

This mini-project involves designing, implementing, and querying a relational database to manage student academic records and demographic information.

Tools :-

MySQL: Structured Query Language, open-source relational database.

SKILL-SET
